Principal: Linda Lopata

Vice-Principal: Patrick Belmonte

About Our School/Community

Bellwood Public School is located in southeast Whitby. We offer programmes from Junior Kindergarten through Grade 8. The student population is approximately 470. We are a staff committed to delivering an educational program which provides students with the necessary tools and skills for the future.

For 2009-2010 the staff members of Bellwood Public School are committed to further developing our skills in common assessment and differentiated instruction. Through this we strive to build strong literacy and numeracy skills in our students. Students will also benefit from our renewed emphasis on character education and respect.

We offer a variety of extra curricular programs for students: Folk Dance, clubs, bands, a multitude of sports teams, choir, to name a few. We aim to help develop a well rounded child, ready to succeed in life.

Our school facility is used in the evening and on weekends by the Bellwood Community School. Many varied activities are provided to the community by this group. We have recently opened our new four-classroom addition, allowing more classes a chance to be in the main school building.

We have a very active and committed School Community Council who continue to support school initiatives and acts as an advisory group in school matters. Our S.C.C. raises funds to support programs such as Scientists in the School, guest presentations, student incentives and recognition awards. They continue to organize pizza lunches, participate on the School Safety Committee, coordinate healthy snacks during the EQAO assessments and volunteer as supervisors whenever needed in the classroom and on trips, sports and special events.

About the 2009-2010 Results/Next Steps

At Bellwood we remain committed to the goal of improving student achievement and look forward to working with our literacy coach, and facilitator to add to our bank of professional expertise. The EQAO results are one measure we use to gauge our success, plan what to teach and provide just a snapshot of students' achievement.

We are very pleased that our grade three students continued to demonstrate a high degree of success in reading, writing and mathematics this year, scoring well above the board and provincial averages in all three areas. This reflects the hard work and dedication of all staff from kindergarten to grade 3. It also speaks to the commitment of parents to read to and support their children's learning at home.

With EQAO, results reflect the percent of students scoring at or above grade level. Our primary results showed a dip in all areas (from 84% the year before to 76% in Reading last year; from 74% to 62% in Writing; and from 97% to 78% in Math), but we still maintained quite high levels in Math and Reading, with Writing results lagging slightly. We did have averages above the board averages in Reading and Mathematics. We will be continuing to have writing as a focus this year.

Junior results in Reading stayed steady at about 70%, although we did see a dip in Writing (from 76% to 60%). In Math, our grade 6 students had about the same score as last year (40%), and we are disappointed at these levels. During the past year, the school focussed extensively on writing, particularly looking at boy writers and ways in which to encourage and improve writing assignments taught to and submitted by boys, as well as Math. We will continue with this focus, this year. Math will be a major area of improvement for our juniors this year.

Results will be shared with parents and staff in many ways. Staff will discuss and analyze results at staff, division, like grade and School Improvement Team meetings. Parents will be informed about results through the school Newsletter, and by direct communication (Individual Student Results sent home to parents of students who wrote the assessment last spring).

As we work through an in-depth look at strengths and weaknesses to develop our action plan, improvement goals will be developed with staff, and shared with students and parents. Daily ongoing assessment and evaluation will continue to be essential in improving the quality of education for Bellwood students. Our action plan for the 2009-2010 school year will be developed using the results of the EQAO assessment as one indicator for school and student improvement.

Parents in the Bellwood community play a key role in student achievement as they participate in home reading programs and require their children to complete homework, study for tests and review work on a regular basis. The interventions we take together are key to helping our students succeed and improve.

School Report

Assessments of Reading, Writing and Mathematics
Primary Division (Grades 1–3) and Junior Division (Grades 4–6), 2008–2009

School: Bellwood PS (042269)
Board: Durham DSB (66060)

I am pleased to provide you with this report on the Assessments of Reading, Writing and Mathematics, Primary Division (Grades 1–3) and Junior Division (Grades 4–6), for 2008–2009. Included are student results for the current year, those from previous years and, to put these results in context, information about the local student populations.

Throughout the province and since the inception of the agency, EQAO results have helped inform professional practice and have served as a catalyst for improving student achievement. This report has been designed to assist you in your conversations about improved student learning.

We believe that every student deserves the best outcome from public education. That’s why, in close collaboration with Ontario educators, EQAO continues to develop assessments that gauge the achievement of all Ontario students against the learning expectations outlined in The Ontario Curriculum. These assessments ensure that every student in Ontario’s publicly funded school system is assessed using the same yard stick at key stages in his or her schooling.

However, it should be remembered that EQAO’s assessment results are just one piece of information about student achievement. These results should be considered in conjunction with school-based information, such as that from classroom assessments.

I trust this report will help parents, educators and all who support a strong public education system work together so that all students can reach their full potential.

Sincerely,

Marguerite Jackson
Chief Executive Officer
Education Quality and Accountability Office

TIPS

Each school or board is unique. To appreciate the distinctive character of a school or board, look at the contextual information to understand the features and characteristics of the community it serves.

Every assessment captures the performance of students at one point in time each year. Consider the results along with other information about students' achievement in reading, writing and mathematics.

Exercise caution when interpreting results for small schools or boards. Results may vary considerably from year to year, and differences may look exaggerated. For example, in a school of 20 students, a difference of 10% represents only two students.

Trends may be difficult to identify or to interpret. This is especially true in small schools or boards, or in schools where there is a high turnover in the student population.

EQAO values students' privacy. Results are not reported publicly for schools where fewer than 15 students participated, because it might be possible to identify individual students.

ABOUT THIS SCHOOL OR BOARD REPORT

This report shows how well students have met curriculum expectations to the end of the Primary Division and the end of the Junior Division. Students complete a set of test booklets that allow them to show what they have learned in reading, writing and mathematics. The assessments are based on The Ontario Curriculum.

This report includes

- ◆ results for this year
- ◆ a comparison of results over the past four years to aid in monitoring improvement
- ◆ information about the characteristics of the students who participated
- ◆ summary graphs showing the percentage of students achieving the provincial standard in reading, writing and mathematics
- ◆ detailed tables and graphs showing results for all levels of achievement, results for gender and participation information
- ◆ student questionnaire results
- ◆ an explanation of all terms used in this report.

HOW TO USE THIS REPORT

- ◆ Examine the contextual information to understand the similarities and differences between the school, the board and the province; the board and the province. Consider the challenges that any differences might present.
- ◆ Examine the results for reading, writing and mathematics.
 - Are these results consistent with what you would expect?
 - How do the school results compare to the board and the province; the board results compare to the province?
 - How do these results compare over time?
 - What influence might students' attitudes have on student performance (refer to the questionnaire results)?
- ◆ Speak to school or board staff about the goals for school improvement related to reading, writing and mathematics.

The Education Quality and Accountability Office is an independent agency that gathers information about student achievement through province-wide assessments. Each year, all Grade 3 and Grade 6 students across Ontario take part in these assessments of reading, writing and mathematics. Individual results are reported to students and to parents and guardians. School, board and provincial results are released publicly.

	2004-2005		2005-2006		2006-2007		2007-2008		2008-2009	
	Female	Male	Female	Male	Female	Male	Female	Male	Female	Male
School	34	24	21	18	22	33	22	27	26	21

† Includes only students for whom gender data were available.

Assessments of Reading, Writing and Mathematics, Primary and Junior Divisions, 2008–2009

STUDENT QUESTIONNAIRE RESULTS FOR THIS SCHOOL: GRADE 3 (# = 46)		
Questionnaire Item	Percentage of Students*	Number of Students Who Answered "Yes"
	0 100	
I am a good reader.		34
I like to read.		34
I read by myself at home.		30
I read with someone older than me at home.		8
I use a computer for reading activities at school.		11
I am a good writer.		36
I like to write.		31
I write by myself at home.		33
Someone older than me helps me with my writing at home.		3
I use a computer for writing activities at school.		12
I am good at mathematics.		35
I like mathematics.		35
I use mathematics to solve problems outside school.		22
Someone older than me helps me with my mathematics at home.		9
I use a computer to learn mathematics at school.		8
I use a calculator to learn mathematics at school.		4
At home, there is a computer for me to use for school work.		26
		

* Percentages may not add to 100, due to a lack of or ambiguous responses. Where there is no number in a box, the percentage of responses is smaller than 4.

Assessments of Reading, Writing and Mathematics, Primary and Junior Divisions, 2008–2009

EXPLANATION OF TERMS

All Students	Results are reported for all students in the grade.
Participating Students	Results are reported only for those students who took part in the assessment (excludes "no data" and "exempt" categories).
Provincial Standard	The Ministry of Education has set Level 3 as the provincial standard.
Level 4	The student has demonstrated the required knowledge and skills. Achievement surpasses the provincial standard.
Level 3	The student has demonstrated most of the required knowledge and skills. Achievement is at the provincial standard.
Level 2	The student has demonstrated some of the required knowledge and skills. Achievement approaches the provincial standard.
Level 1	The student has demonstrated some of the required knowledge and skills in limited ways. Achievement falls much below the provincial standard.
NE1	"Not enough evidence for Level 1" is used when students did not demonstrate enough evidence of knowledge and understanding to be assigned Level 1.
No Data	Students who did not complete any part of the assessment due to absence or for medical or other reasons.
Exempt	Students who were formally exempted from participation in one or more components of the assessment.
English Language Learners	Students who have been identified by the school in accordance with English Language Learners: ESL and ELD Programs and Services: Policies and Procedures for Ontario Elementary and Secondary Schools, Kindergarten to Grade 12 (2007). Prior to 2007, English language learners were called English as a second language (ESL)/English literacy development (ELD) learners.
English Language Learners Receiving a Special Provision	English language learners identified by the school as receiving a special provision. Detailed information about special provisions is available in EQAO's Guide for Accommodations, Special Provisions and Exemptions.
Students with Special Needs (excluding gifted)	Students who have been formally identified by an Identification, Placement and Review Committee, as well as students who have an Individual Education Plan. Students identified as gifted are not included.
Students Receiving One or More Accommodations	Students identified by the school as receiving accommodations. Students identified as gifted are not included. Detailed information about accommodations is available in EQAO's Guide for Accommodations, Special Provisions and Exemptions.
N/R	"Not reported" indicates that the number of students participating (fewer than 15 in a group) or responding to the Student Questionnaire is so small (fewer than six in a group) that identification of individual student results might be possible; therefore, results are not reported.
N/D	"No data available" is used to indicate that there were no students in the grade or subject for the group or year specified.
W	Results for some or all students are being withheld by EQAO. For further information, please contact the school principal.
