

School/Community Report

2008 - 2009 EQAO

Primary (Grades 1-3) and

Junior (Grades 4-6)

Assessments of

Reading, Writing and Mathematics

Captain Michael VandenBos P.S.

3121 Country Lane

Whitby, ON

L1P 1N3

905-665-2001

Principal: Monique De Villers

Vice-Principal: Chris vanderMeer

About Our School/Community

Captain Michael VandenBos is a dual track school, which means that both English and French Immersion programmes are available at this site. Our school doors opened on January 22, 2001 with a population of 435 students from grades K - 8. Over the years, Captain Michael VandenBos has continued to experience growth especially within the French Immersion program. Presently over 70% of our grade one to eight students are enrolled in the French Immersion program. Our numbers now stand at 760 students.

The school and its community work together to meet the academic, physical, emotional and social needs of our students. Parents play a very active role at Captain Michael VandenBos Public School. Strong partnerships between home and school are developed through a variety of ways. Our School Community Council, and numerous parent volunteers work cooperatively with our dedicated staff to help students realize their potential and achieve their goals. A true community atmosphere exists at Captain Michael VandenBos Public School.

About the 2008/09 Results/Next Steps

The assessment scales for reading, writing and mathematics were based on the expectations developed by the Ministry of Education and Training. Students' reading, writing and mathematics booklets are rated at the levels that best describe their level of achievement in this assessment initiative/unit only. It is important to note that only the Grade 3 English program students wrote the Reading and Writing part of the assessment as the Grade 3 French Immersion students only write EQAO testing in Mathematics. At present, there is no French Immersion reading and writing testing available from EQAO for these Grade 3 F.I. students. The Grade 6 F.I. students write all EQAO testing in English even though their math instruction is in French. This situation is yet to be rectified by EQAO so we have provided some instruction in English before the assessment in order to meet this significant challenge for our F.I. students.

Presenting the 2008/09 EQAO results.

Our grade 3 students **exceeded** the boards results in Reading and Writing with 69% and 75% and were consistent with the board average in Mathematics with 73%. The grade 6 results **exceeded** the boards results in all three areas with 78% in Reading, 78% in Writing and 80% in Mathematics. Both the grade 3 and 6 results **exceeded** the Provincial Results in all three areas! Individual students results will be reviewed by our grade 3, 4, 6 and 7 teachers and our S.E.R.T.'s to identify how we can continue to meet the needs of our students. Staff members critically reviewing the data and identified future directions and determined instructional strategies that will allow us to continue to improve student achievement. Our professional learning community teams used the school data to establish a school wide set of literacy and numeracy goals for the 2009-2010 school year. An action plan will be created to ensure continued school improvement and achievement of our school goals.

A copy of the complete results is available upon request from the school office. These current results are shared with the teaching staff, parents of Grade 4 and 7 students, and the elected members of the S.C.C. The overall results are also shared with the rest of our community through the school newsletter. Please do not hesitate to contact the school with any comments or suggestions for improvement.

School Report

Assessments of Reading, Writing and Mathematics
Primary Division (Grades 1–3) and Junior Division (Grades 4–6), 2008–2009

School: Captain Michael Vandebos (082686)
Board: Durham DSB (66060)

I am pleased to provide you with this report on the Assessments of Reading, Writing and Mathematics, Primary Division (Grades 1–3) and Junior Division (Grades 4–6), for 2008–2009. Included are student results for the current year, those from previous years and, to put these results in context, information about the local student populations.

Throughout the province and since the inception of the agency, EQAO results have helped inform professional practice and have served as a catalyst for improving student achievement. This report has been designed to assist you in your conversations about improved student learning.

We believe that every student deserves the best outcome from public education. That’s why, in close collaboration with Ontario educators, EQAO continues to develop assessments that gauge the achievement of all Ontario students against the learning expectations outlined in The Ontario Curriculum. These assessments ensure that every student in Ontario’s publicly funded school system is assessed using the same yard stick at key stages in his or her schooling.

However, it should be remembered that EQAO’s assessment results are just one piece of information about student achievement. These results should be considered in conjunction with school-based information, such as that from classroom assessments.

I trust this report will help parents, educators and all who support a strong public education system work together so that all students can reach their full potential.

Sincerely,

Marguerite Jackson
Chief Executive Officer
Education Quality and Accountability Office

TIPS

Each school or board is unique. To appreciate the distinctive character of a school or board, look at the contextual information to understand the features and characteristics of the community it serves.

Every assessment captures the performance of students at one point in time each year. Consider the results along with other information about students' achievement in reading, writing and mathematics.

Exercise caution when interpreting results for small schools or boards. Results may vary considerably from year to year, and differences may look exaggerated. For example, in a school of 20 students, a difference of 10% represents only two students.

Trends may be difficult to identify or to interpret. This is especially true in small schools or boards, or in schools where there is a high turnover in the student population.

EQAO values students' privacy. Results are not reported publicly for schools where fewer than 15 students participated, because it might be possible to identify individual students.

ABOUT THIS SCHOOL OR BOARD REPORT

This report shows how well students have met curriculum expectations to the end of the Primary Division and the end of the Junior Division. Students complete a set of test booklets that allow them to show what they have learned in reading, writing and mathematics. The assessments are based on The Ontario Curriculum.

This report includes

- ◆ results for this year
- ◆ a comparison of results over the past four years to aid in monitoring improvement
- ◆ information about the characteristics of the students who participated
- ◆ summary graphs showing the percentage of students achieving the provincial standard in reading, writing and mathematics
- ◆ detailed tables and graphs showing results for all levels of achievement, results for gender and participation information
- ◆ student questionnaire results
- ◆ an explanation of all terms used in this report.

HOW TO USE THIS REPORT

- ◆ Examine the contextual information to understand the similarities and differences between the school, the board and the province; the board and the province. Consider the challenges that any differences might present.
- ◆ Examine the results for reading, writing and mathematics.
 - Are these results consistent with what you would expect?
 - How do the school results compare to the board and the province; the board results compare to the province?
 - How do these results compare over time?
 - What influence might students' attitudes have on student performance (refer to the questionnaire results)?
- ◆ Speak to school or board staff about the goals for school improvement related to reading, writing and mathematics.

The Education Quality and Accountability Office is an independent agency that gathers information about student achievement through province-wide assessments. Each year, all Grade 3 and Grade 6 students across Ontario take part in these assessments of reading, writing and mathematics. Individual results are reported to students and to parents and guardians. School, board and provincial results are released publicly.

Assessments of Reading, Writing and Mathematics, Primary and Junior Divisions, 2008–2009

EXPLANATION OF TERMS

All Students	Results are reported for all students in the grade.
Participating Students	Results are reported only for those students who took part in the assessment (excludes "no data" and "exempt" categories).
Provincial Standard	The Ministry of Education has set Level 3 as the provincial standard.
Level 4	The student has demonstrated the required knowledge and skills. Achievement surpasses the provincial standard.
Level 3	The student has demonstrated most of the required knowledge and skills. Achievement is at the provincial standard.
Level 2	The student has demonstrated some of the required knowledge and skills. Achievement approaches the provincial standard.
Level 1	The student has demonstrated some of the required knowledge and skills in limited ways. Achievement falls much below the provincial standard.
NE1	"Not enough evidence for Level 1" is used when students did not demonstrate enough evidence of knowledge and understanding to be assigned Level 1.
No Data	Students who did not complete any part of the assessment due to absence or for medical or other reasons.
Exempt	Students who were formally exempted from participation in one or more components of the assessment.
English Language Learners	Students who have been identified by the school in accordance with English Language Learners: ESL and ELD Programs and Services: Policies and Procedures for Ontario Elementary and Secondary Schools, Kindergarten to Grade 12 (2007). Prior to 2007, English language learners were called English as a second language (ESL)/English literacy development (ELD) learners.
English Language Learners Receiving a Special Provision	English language learners identified by the school as receiving a special provision. Detailed information about special provisions is available in EQAO's Guide for Accommodations, Special Provisions and Exemptions.
Students with Special Needs (excluding gifted)	Students who have been formally identified by an Identification, Placement and Review Committee, as well as students who have an Individual Education Plan. Students identified as gifted are not included.
Students Receiving One or More Accommodations	Students identified by the school as receiving accommodations. Students identified as gifted are not included. Detailed information about accommodations is available in EQAO's Guide for Accommodations, Special Provisions and Exemptions.
N/R	"Not reported" indicates that the number of students participating (fewer than 15 in a group) or responding to the Student Questionnaire is so small (fewer than six in a group) that identification of individual student results might be possible; therefore, results are not reported.
N/D	"No data available" is used to indicate that there were no students in the grade or subject for the group or year specified.
W	Results for some or all students are being withheld by EQAO. For further information, please contact the school principal.
