***Principal: Candee Forest***

***Vice-Principal: Elio Campo***

### ***About Our School and Community***

Gordon B. Attersley Public School is located in north Oshawa, and draws students from an area bounded by Rossland Road to the south, Wilson Road to the east, Taunton Road to the north and Harmony Road to the west.

Our school hosts a population of 522 students from Junior Kindergarten to Grade 8 with two distinct classes that support pupils with special needs. In addition, we have a number of students who receive support from our Educational Assistants, Literacy Coach and Special Education Resource Teachers. Our staff of dedicated teachers and Educational Assistants provide a safe and stimulating environment that fosters student learning and growth.

Our school growth plan continues to emphasize four specific directions: literacy, numeracy, safety and wellness. This plan is consistent with EQAO and Board-wide initiatives. Each class has a math block in which to focus on math concepts. New mathematics resources, the use of manipulatives, problem solving strategies and staff professional development are the nucleus for the mathematics program at Attersley.

There is a two hour literacy block for primary classes. Our school based PLC (Professional Learning Community) is focused on effective literacy and numeracy strategies for improving student achievement. Resource materials and in-services on literacy have been provided for all staff. Many staff members use Write Traits, guided reading, literature circles and strategies from the Animated Literacy program to promote language development and use. Teachers employ numerous assessment tools including Running Records and CASI. A Literacy Room containing and extensive levelled literacy resources has been organized for the staff to use in their programs.

The staff and community support a variety of co-curricular and extra-curricular activities including science/technology club, garden and environmental clubs, student and athletic councils, hip-hop, folk dancing, intramural sports, school team sports, choirs and bands. Gordon B. Attersley Public School enjoys a healthy partnership with the School Community Council with all members working hard to achieve our common goals. Parents are active in our school, volunteering in a variety of ways including working in the classrooms and office, fundraising and supervising on school trips.

### ***About the 2008-2009 Results/Next Steps***

The 2007-2008 Grade Three and Grade Six Provincial Assessments have provided a further foundation to gather information about Ontario schools and student achievement, based on performances with the expectations in the Ontario Curriculum: 1-8. The Assessment measured not only what students know, but also how they were able to apply the knowledge and communicate their ideas clearly. The Provincial Assessment results are just one piece of the puzzle. They provide a snapshot of the teaching and learning occurring within a short time frame. Daily on-going assessment and evaluation will continue to be crucial in improving the quality of education for our students.

The results of this year's assessment will be shared with staff, parents and the School Community Council. Our staff will be conducting an in-depth review of the data when it arrives. The school staff have created a new plans to address strategies that will assist with future programming for students at all grade levels.

# School Report

Assessments of Reading, Writing and Mathematics  
Primary Division (Grades 1–3) and Junior Division (Grades 4–6), 2008–2009

**School: Gordon B. Attersley PS (221805)**  
**Board: Durham DSB (66060)**

I am pleased to provide you with this report on the Assessments of Reading, Writing and Mathematics, Primary Division (Grades 1–3) and Junior Division (Grades 4–6), for 2008–2009. Included are student results for the current year, those from previous years and, to put these results in context, information about the local student populations.

Throughout the province and since the inception of the agency, EQAO results have helped inform professional practice and have served as a catalyst for improving student achievement. This report has been designed to assist you in your conversations about improved student learning.

We believe that every student deserves the best outcome from public education. That’s why, in close collaboration with Ontario educators, EQAO continues to develop assessments that gauge the achievement of all Ontario students against the learning expectations outlined in The Ontario Curriculum. These assessments ensure that every student in Ontario’s publicly funded school system is assessed using the same yard stick at key stages in his or her schooling.

However, it should be remembered that EQAO’s assessment results are just one piece of information about student achievement. These results should be considered in conjunction with school-based information, such as that from classroom assessments.

I trust this report will help parents, educators and all who support a strong public education system work together so that all students can reach their full potential.

Sincerely,

Marguerite Jackson  
Chief Executive Officer  
Education Quality and Accountability Office

## TIPS

Each school or board is unique. To appreciate the distinctive character of a school or board, look at the contextual information to understand the features and characteristics of the community it serves.

Every assessment captures the performance of students at one point in time each year. Consider the results along with other information about students' achievement in reading, writing and mathematics.

Exercise caution when interpreting results for small schools or boards. Results may vary considerably from year to year, and differences may look exaggerated. For example, in a school of 20 students, a difference of 10% represents only two students.

Trends may be difficult to identify or to interpret. This is especially true in small schools or boards, or in schools where there is a high turnover in the student population.

EQAO values students' privacy. Results are not reported publicly for schools where fewer than 15 students participated, because it might be possible to identify individual students.

## ABOUT THIS SCHOOL OR BOARD REPORT

This report shows how well students have met curriculum expectations to the end of the Primary Division and the end of the Junior Division. Students complete a set of test booklets that allow them to show what they have learned in reading, writing and mathematics. The assessments are based on The Ontario Curriculum.

### This report includes

- ◆ results for this year
- ◆ a comparison of results over the past four years to aid in monitoring improvement
- ◆ information about the characteristics of the students who participated
- ◆ summary graphs showing the percentage of students achieving the provincial standard in reading, writing and mathematics
- ◆ detailed tables and graphs showing results for all levels of achievement, results for gender and participation information
- ◆ student questionnaire results
- ◆ an explanation of all terms used in this report.

## HOW TO USE THIS REPORT

- ◆ Examine the contextual information to understand the similarities and differences between the school, the board and the province; the board and the province. Consider the challenges that any differences might present.
- ◆ Examine the results for reading, writing and mathematics.
  - Are these results consistent with what you would expect?
  - How do the school results compare to the board and the province; the board results compare to the province?
  - How do these results compare over time?
  - What influence might students' attitudes have on student performance (refer to the questionnaire results)?
- ◆ Speak to school or board staff about the goals for school improvement related to reading, writing and mathematics.

The Education Quality and Accountability Office is an independent agency that gathers information about student achievement through province-wide assessments. Each year, all Grade 3 and Grade 6 students across Ontario take part in these assessments of reading, writing and mathematics. Individual results are reported to students and to parents and guardians. School, board and provincial results are released publicly.

Learn more about us at [www.eqao.com](http://www.eqao.com).

## Assessments of Reading, Writing and Mathematics, Primary and Junior Divisions, 2008–2009

## EXPLANATION OF TERMS

<b>All Students</b>	Results are reported for all students in the grade.
<b>Participating Students</b>	Results are reported only for those students who took part in the assessment (excludes "no data" and "exempt" categories).
<b>Provincial Standard</b>	The Ministry of Education has set Level 3 as the provincial standard.
<b>Level 4</b>	The student has demonstrated the required knowledge and skills. Achievement surpasses the provincial standard.
<b>Level 3</b>	The student has demonstrated most of the required knowledge and skills. Achievement is at the provincial standard.
<b>Level 2</b>	The student has demonstrated some of the required knowledge and skills. Achievement approaches the provincial standard.
<b>Level 1</b>	The student has demonstrated some of the required knowledge and skills in limited ways. Achievement falls much below the provincial standard.
<b>NE1</b>	"Not enough evidence for Level 1" is used when students did not demonstrate enough evidence of knowledge and understanding to be assigned Level 1.
<b>No Data</b>	Students who did not complete any part of the assessment due to absence or for medical or other reasons.
<b>Exempt</b>	Students who were formally exempted from participation in one or more components of the assessment.
<b>English Language Learners</b>	Students who have been identified by the school in accordance with English Language Learners: ESL and ELD Programs and Services: Policies and Procedures for Ontario Elementary and Secondary Schools, Kindergarten to Grade 12 (2007). Prior to 2007, English language learners were called English as a second language (ESL)/English literacy development (ELD) learners.
<b>English Language Learners Receiving a Special Provision</b>	English language learners identified by the school as receiving a special provision. Detailed information about special provisions is available in EQAO's Guide for Accommodations, Special Provisions and Exemptions.
<b>Students with Special Needs (excluding gifted)</b>	Students who have been formally identified by an Identification, Placement and Review Committee, as well as students who have an Individual Education Plan. Students identified as gifted are not included.
<b>Students Receiving One or More Accommodations</b>	Students identified by the school as receiving accommodations. Students identified as gifted are not included. Detailed information about accommodations is available in EQAO's Guide for Accommodations, Special Provisions and Exemptions.
<b>N/R</b>	"Not reported" indicates that the number of students participating (fewer than 15 in a group) or responding to the Student Questionnaire is so small (fewer than six in a group) that identification of individual student results might be possible; therefore, results are not reported.
<b>N/D</b>	"No data available" is used to indicate that there were no students in the grade or subject for the group or year specified.
<b>W</b>	Results for some or all students are being withheld by EQAO. For further information, please contact the school principal.
