## ***About the 2008 ~ 2009 EQAO***

Harmony Heights Public School has a population of just under 400 students ( a declining population like the rest of Ontario). We have one special education class ( Junior/Intermediate Associated classroom) and provide programs for children grades JK to Grade 8. Last year we were designated as an Ontario Funded Intervention Program school. This designation enabled the school to receive funding to support professional learning communities (PLC's) for primary/junior teachers on a monthly basis. PLC's offer teachers opportunities to learn and share strategies that engage students in the learning process with the aim of improving academic performance moving them toward the provincial expectation of Level 3 & 4 on EQAO assessments. Teachers analyze assessment data to plan and develop student programs that meet these higher standards.

This past our school improvement team suggested that we focus on three part problem solving (becoming our Bertelsmann Project) and employing "bansho" strategies (using children's background knowledge and encouraging children to approach problem solving by using a variety of strategies such as using manipulatives, drawing diagrams, discussing with others possible problem solving techniques, etc.).

The EQAO assessment results for Grade 3 at levels 3 & 4 showed continuous improvement in writing each year over the past five years. The percentage of students at HHPS in levels 3 & 4 since 2004 to 2009 in writing are: 33%, 37%, 43%, 49% and this year 53%. In Reading for the same period of time for Grade 3's in levels 3 & 4 are as follows: 44%, 34%, 45%, 49% & 49%. In Mathematics the grade 3 levels over the same period: 49%, 43%, 36%, 41%, 86% this year. Fabulous outcome this year in numeracy with truly our first real efforts at focusing more on numeracy and specifically three step problem solving.

The EQAO assessment results for grade 6 were terrific in reading and writing last year. Recognizing this consolidation of higher scores in EQAO last year, we turned our attention toward improving in numeracy (specifically three step problem solving). Unfortunately we took a dramatic drop in Literacy compared to last year's scores. This year in grade 6 reading and writing we scored at 39<sup>th</sup> percentiles for students at levels 3 & 4. Quite disappointing indeed. In numeracy we did improve over last years poor score results of 22<sup>nd</sup> percentile and improved to the 32<sup>nd</sup> percentile in levels 3 & 4. We are pleased with this improvement, but still have lots of work to do. Small steps forward but recognizes the efforts of the staff and students to work hard at improving numeracy scores.

We as a school continue to believe that all students can learn and improve in all academic domains. As a staff we continue to analyze data and to incorporate the best methods that will sustain student academic improvement. We will use our professional learning communities to dialogue, share and support initiatives that will lead to even greater student success. As a staff we are working hard to develop the resources, methodologies and the necessary instructional strategies that to improve student outcomes. We need community support and efforts to help us on this journey. Within the context of PLC's we will continue to plan for school success. As a We invite the community to share ideas and commit to providing a home that sustains academic improvement. When students feel safe and supported in all aspects of school life at Harmony Heights Public School we will continue to have positive outcomes.

# School Report

Assessments of Reading, Writing and Mathematics  
Primary Division (Grades 1–3) and Junior Division (Grades 4–6), 2008–2009

**School: Harmony Heights PS (244791)**  
**Board: Durham DSB (66060)**

I am pleased to provide you with this report on the Assessments of Reading, Writing and Mathematics, Primary Division (Grades 1–3) and Junior Division (Grades 4–6), for 2008–2009. Included are student results for the current year, those from previous years and, to put these results in context, information about the local student populations.

Throughout the province and since the inception of the agency, EQAO results have helped inform professional practice and have served as a catalyst for improving student achievement. This report has been designed to assist you in your conversations about improved student learning.

We believe that every student deserves the best outcome from public education. That’s why, in close collaboration with Ontario educators, EQAO continues to develop assessments that gauge the achievement of all Ontario students against the learning expectations outlined in The Ontario Curriculum. These assessments ensure that every student in Ontario’s publicly funded school system is assessed using the same yard stick at key stages in his or her schooling.

However, it should be remembered that EQAO’s assessment results are just one piece of information about student achievement. These results should be considered in conjunction with school-based information, such as that from classroom assessments.

I trust this report will help parents, educators and all who support a strong public education system work together so that all students can reach their full potential.

Sincerely,

Marguerite Jackson  
Chief Executive Officer  
Education Quality and Accountability Office

## TIPS

Each school or board is unique. To appreciate the distinctive character of a school or board, look at the contextual information to understand the features and characteristics of the community it serves.

Every assessment captures the performance of students at one point in time each year. Consider the results along with other information about students' achievement in reading, writing and mathematics.

Exercise caution when interpreting results for small schools or boards. Results may vary considerably from year to year, and differences may look exaggerated. For example, in a school of 20 students, a difference of 10% represents only two students.

Trends may be difficult to identify or to interpret. This is especially true in small schools or boards, or in schools where there is a high turnover in the student population.

EQAO values students' privacy. Results are not reported publicly for schools where fewer than 15 students participated, because it might be possible to identify individual students.

## ABOUT THIS SCHOOL OR BOARD REPORT

This report shows how well students have met curriculum expectations to the end of the Primary Division and the end of the Junior Division. Students complete a set of test booklets that allow them to show what they have learned in reading, writing and mathematics. The assessments are based on The Ontario Curriculum.

### This report includes

- ◆ results for this year
- ◆ a comparison of results over the past four years to aid in monitoring improvement
- ◆ information about the characteristics of the students who participated
- ◆ summary graphs showing the percentage of students achieving the provincial standard in reading, writing and mathematics
- ◆ detailed tables and graphs showing results for all levels of achievement, results for gender and participation information
- ◆ student questionnaire results
- ◆ an explanation of all terms used in this report.

## HOW TO USE THIS REPORT

- ◆ Examine the contextual information to understand the similarities and differences between the school, the board and the province; the board and the province. Consider the challenges that any differences might present.
- ◆ Examine the results for reading, writing and mathematics.
  - Are these results consistent with what you would expect?
  - How do the school results compare to the board and the province; the board results compare to the province?
  - How do these results compare over time?
  - What influence might students' attitudes have on student performance (refer to the questionnaire results)?
- ◆ Speak to school or board staff about the goals for school improvement related to reading, writing and mathematics.

The Education Quality and Accountability Office is an independent agency that gathers information about student achievement through province-wide assessments. Each year, all Grade 3 and Grade 6 students across Ontario take part in these assessments of reading, writing and mathematics. Individual results are reported to students and to parents and guardians. School, board and provincial results are released publicly.

Learn more about us at [www.eqao.com](http://www.eqao.com).

Assessments of Reading, Writing and Mathematics, Primary and Junior Divisions, 2008–2009

STUDENT QUESTIONNAIRE RESULTS FOR THIS SCHOOL: GRADE 3 (# = 35)		
Questionnaire Item	Percentage of Students*	Number of Students Who Answered "Yes"
I am a good reader.		26
I like to read.		24
I read by myself at home.		18
I read with someone older than me at home.		9
I use a computer for reading activities at school.		5
I am a good writer.		21
I like to write.		15
I write by myself at home.		14
Someone older than me helps me with my writing at home.		8
I use a computer for writing activities at school.		5
I am good at mathematics.		21
I like mathematics.		18
I use mathematics to solve problems outside school.		9
Someone older than me helps me with my mathematics at home.		8
I use a computer to learn mathematics at school.		6
I use a calculator to learn mathematics at school.		3
At home, there is a computer for me to use for school work.		16

\* Percentages may not add to 100, due to a lack of or ambiguous responses. Where there is no number in a box, the percentage of responses is smaller than 4.

## Assessments of Reading, Writing and Mathematics, Primary and Junior Divisions, 2008–2009

## EXPLANATION OF TERMS

<b>All Students</b>	Results are reported for all students in the grade.
<b>Participating Students</b>	Results are reported only for those students who took part in the assessment (excludes "no data" and "exempt" categories).
<b>Provincial Standard</b>	The Ministry of Education has set Level 3 as the provincial standard.
<b>Level 4</b>	The student has demonstrated the required knowledge and skills. Achievement surpasses the provincial standard.
<b>Level 3</b>	The student has demonstrated most of the required knowledge and skills. Achievement is at the provincial standard.
<b>Level 2</b>	The student has demonstrated some of the required knowledge and skills. Achievement approaches the provincial standard.
<b>Level 1</b>	The student has demonstrated some of the required knowledge and skills in limited ways. Achievement falls much below the provincial standard.
<b>NE1</b>	"Not enough evidence for Level 1" is used when students did not demonstrate enough evidence of knowledge and understanding to be assigned Level 1.
<b>No Data</b>	Students who did not complete any part of the assessment due to absence or for medical or other reasons.
<b>Exempt</b>	Students who were formally exempted from participation in one or more components of the assessment.
<b>English Language Learners</b>	Students who have been identified by the school in accordance with English Language Learners: ESL and ELD Programs and Services: Policies and Procedures for Ontario Elementary and Secondary Schools, Kindergarten to Grade 12 (2007). Prior to 2007, English language learners were called English as a second language (ESL)/English literacy development (ELD) learners.
<b>English Language Learners Receiving a Special Provision</b>	English language learners identified by the school as receiving a special provision. Detailed information about special provisions is available in EQAO's Guide for Accommodations, Special Provisions and Exemptions.
<b>Students with Special Needs (excluding gifted)</b>	Students who have been formally identified by an Identification, Placement and Review Committee, as well as students who have an Individual Education Plan. Students identified as gifted are not included.
<b>Students Receiving One or More Accommodations</b>	Students identified by the school as receiving accommodations. Students identified as gifted are not included. Detailed information about accommodations is available in EQAO's Guide for Accommodations, Special Provisions and Exemptions.
<b>N/R</b>	"Not reported" indicates that the number of students participating (fewer than 15 in a group) or responding to the Student Questionnaire is so small (fewer than six in a group) that identification of individual student results might be possible; therefore, results are not reported.
<b>N/D</b>	"No data available" is used to indicate that there were no students in the grade or subject for the group or year specified.
<b>W</b>	Results for some or all students are being withheld by EQAO. For further information, please contact the school principal.
