***Principal: Susan Jasper***

***Vice-Principal: Robynn Ripley***

## ***ABOUT OUR SCHOOL/COMMUNITY***

**John Dryden Public School** opened its doors in 1995 and is a Junior Kindergarten to Grade 8 school with a population of 665 students. It is located in north Whitby; east of Thicksen Rd between Rossland Rd. and Taunton Rd.

Focus on **Literacy, Numeracy, Character Education and a Safe School environment** drive our school wide initiatives which are in turn guided by data-driven decision making. We will continue to implement comprehensive literacy and numeracy programs using high-yield instructional strategies and three part problem-solving based lessons.

At John Dryden, we also strive to promote the four A's: **Academics, Arts, Athletics and Attitude**. We continue to develop and enhance the John Dryden Professional Learning Community with a consistent and collaborative focus on student learning and achievement.

At John Dryden we work to provide a well-rounded educational experience. Staff members are dedicated, caring and progressive. Our students are provided with the opportunity to participate in numerous co-curricular activities in sports, music, drama and art, as well as a variety of special interest clubs. Our students, parents and staff value these opportunities and believe them to be an integral part of our students' education.

Community links at John Dryden are important and include our S.C.C., Community Use of Schools and Playhouse Daycare. These groups work on behalf of students and the broader community to ensure that John Dryden is ***"PREPARING FOR THE FUTURE BY CARING FOR TODAY."***

## ***ABOUT THE 2008-2009 RESULTS/ NEXT STEPS***

At John Dryden Public School we remain committed to the goals of **improving student learning** and **closing the achievement gaps**. We have endeavored to develop total school community involvement and ownership for the results of the E.Q.A.O Assessment. Furthermore, results will be shared with the school community in a variety of ways. The Individual Student Reports will be shared with the parents and teachers of the students who participated in the assessment. As well, our school results will be shared with all staff, the S.C.C. and the greater school community.

Throughout the 2008-2009 school year, we implemented a variety of literacy and numeracy initiatives led by our like-grade planning teams. We are encouraged by the results of the 2008-2009 assessment, particularly the grade six results that demonstrate great success in all areas of testing.

We commend both teachers and parents for their support of our students and programs which promote achievement. Our staff has been focussing their attention on data collection to make informed decisions about our educational practices. Parents are also key players in the learning process, as they participate in home reading programs and emphasize the importance of completing homework assignments. Parent volunteers provide the invaluable service of extra support to students and staff. We strive to promote an **increase in public confidence** throughout the Dryden community.

As a school, John Dryden is committed to achieving a high level of success with all students. As a school team, we will utilize the E.Q.A.O. Assessment information, along with data collected from our Student Attitudinal Surveys, our Early Literacy Profiles and our report card results to form the basis for our **School Improvement Plan**. We will evaluate the areas in which students experienced success and those where specific interventions are required. From this analysis, our School Improvement Plan will target the areas of greatest need.

We are excited by our successes and look forward to the challenges that lie ahead. We will continue to work together to further improve our overall results and student achievement at John Dryden Public School.

# School Report

Assessments of Reading, Writing and Mathematics  
Primary Division (Grades 1–3) and Junior Division (Grades 4–6), 2008–2009

**School: John Dryden PS (283495)**  
**Board: Durham DSB (66060)**

I am pleased to provide you with this report on the Assessments of Reading, Writing and Mathematics, Primary Division (Grades 1–3) and Junior Division (Grades 4–6), for 2008–2009. Included are student results for the current year, those from previous years and, to put these results in context, information about the local student populations.

Throughout the province and since the inception of the agency, EQAO results have helped inform professional practice and have served as a catalyst for improving student achievement. This report has been designed to assist you in your conversations about improved student learning.

We believe that every student deserves the best outcome from public education. That’s why, in close collaboration with Ontario educators, EQAO continues to develop assessments that gauge the achievement of all Ontario students against the learning expectations outlined in The Ontario Curriculum. These assessments ensure that every student in Ontario’s publicly funded school system is assessed using the same yard stick at key stages in his or her schooling.

However, it should be remembered that EQAO’s assessment results are just one piece of information about student achievement. These results should be considered in conjunction with school-based information, such as that from classroom assessments.

I trust this report will help parents, educators and all who support a strong public education system work together so that all students can reach their full potential.

Sincerely,

Marguerite Jackson  
Chief Executive Officer  
Education Quality and Accountability Office

## TIPS

Each school or board is unique. To appreciate the distinctive character of a school or board, look at the contextual information to understand the features and characteristics of the community it serves.

Every assessment captures the performance of students at one point in time each year. Consider the results along with other information about students' achievement in reading, writing and mathematics.

Exercise caution when interpreting results for small schools or boards. Results may vary considerably from year to year, and differences may look exaggerated. For example, in a school of 20 students, a difference of 10% represents only two students.

Trends may be difficult to identify or to interpret. This is especially true in small schools or boards, or in schools where there is a high turnover in the student population.

EQAO values students' privacy. Results are not reported publicly for schools where fewer than 15 students participated, because it might be possible to identify individual students.

## ABOUT THIS SCHOOL OR BOARD REPORT

This report shows how well students have met curriculum expectations to the end of the Primary Division and the end of the Junior Division. Students complete a set of test booklets that allow them to show what they have learned in reading, writing and mathematics. The assessments are based on The Ontario Curriculum.

### This report includes

- ◆ results for this year
- ◆ a comparison of results over the past four years to aid in monitoring improvement
- ◆ information about the characteristics of the students who participated
- ◆ summary graphs showing the percentage of students achieving the provincial standard in reading, writing and mathematics
- ◆ detailed tables and graphs showing results for all levels of achievement, results for gender and participation information
- ◆ student questionnaire results
- ◆ an explanation of all terms used in this report.

## HOW TO USE THIS REPORT

- ◆ Examine the contextual information to understand the similarities and differences between the school, the board and the province; the board and the province. Consider the challenges that any differences might present.
- ◆ Examine the results for reading, writing and mathematics.
  - Are these results consistent with what you would expect?
  - How do the school results compare to the board and the province; the board results compare to the province?
  - How do these results compare over time?
  - What influence might students' attitudes have on student performance (refer to the questionnaire results)?
- ◆ Speak to school or board staff about the goals for school improvement related to reading, writing and mathematics.

The Education Quality and Accountability Office is an independent agency that gathers information about student achievement through province-wide assessments. Each year, all Grade 3 and Grade 6 students across Ontario take part in these assessments of reading, writing and mathematics. Individual results are reported to students and to parents and guardians. School, board and provincial results are released publicly.

Learn more about us at [www.eqao.com](http://www.eqao.com).

## Assessments of Reading, Writing and Mathematics, Primary and Junior Divisions, 2008–2009

## EXPLANATION OF TERMS

<b>All Students</b>	Results are reported for all students in the grade.
<b>Participating Students</b>	Results are reported only for those students who took part in the assessment (excludes "no data" and "exempt" categories).
<b>Provincial Standard</b>	The Ministry of Education has set Level 3 as the provincial standard.
<b>Level 4</b>	The student has demonstrated the required knowledge and skills. Achievement surpasses the provincial standard.
<b>Level 3</b>	The student has demonstrated most of the required knowledge and skills. Achievement is at the provincial standard.
<b>Level 2</b>	The student has demonstrated some of the required knowledge and skills. Achievement approaches the provincial standard.
<b>Level 1</b>	The student has demonstrated some of the required knowledge and skills in limited ways. Achievement falls much below the provincial standard.
<b>NE1</b>	"Not enough evidence for Level 1" is used when students did not demonstrate enough evidence of knowledge and understanding to be assigned Level 1.
<b>No Data</b>	Students who did not complete any part of the assessment due to absence or for medical or other reasons.
<b>Exempt</b>	Students who were formally exempted from participation in one or more components of the assessment.
<b>English Language Learners</b>	Students who have been identified by the school in accordance with English Language Learners: ESL and ELD Programs and Services: Policies and Procedures for Ontario Elementary and Secondary Schools, Kindergarten to Grade 12 (2007). Prior to 2007, English language learners were called English as a second language (ESL)/English literacy development (ELD) learners.
<b>English Language Learners Receiving a Special Provision</b>	English language learners identified by the school as receiving a special provision. Detailed information about special provisions is available in EQAO's Guide for Accommodations, Special Provisions and Exemptions.
<b>Students with Special Needs (excluding gifted)</b>	Students who have been formally identified by an Identification, Placement and Review Committee, as well as students who have an Individual Education Plan. Students identified as gifted are not included.
<b>Students Receiving One or More Accommodations</b>	Students identified by the school as receiving accommodations. Students identified as gifted are not included. Detailed information about accommodations is available in EQAO's Guide for Accommodations, Special Provisions and Exemptions.
<b>N/R</b>	"Not reported" indicates that the number of students participating (fewer than 15 in a group) or responding to the Student Questionnaire is so small (fewer than six in a group) that identification of individual student results might be possible; therefore, results are not reported.
<b>N/D</b>	"No data available" is used to indicate that there were no students in the grade or subject for the group or year specified.
<b>W</b>	Results for some or all students are being withheld by EQAO. For further information, please contact the school principal.
