

School/Community Report

2008 - 2009 EQAO
Primary (Grades 1-3) and
Junior (Grades 4-6)
Assessments of
Reading, Writing and Mathematics

Ritson Public School

300 Ritson Rd. S.
Oshawa, ON
L1H 5J1
905-723-4133

Principal: Jamie Bricker

About our School/Community

Ritson Public School is located in the heart of the City of Oshawa. The original school was built in 1923 and has had a number of renovations and additions over the years. There are approximately 250 students from Junior Kindergarten to Grade 8, including students who are part of our Special Education Programs. Our special programs presently include a Primary Language Class and a Grove School Enterphase Program, although last year we also had a Junior Language Class. Literacy, Numeracy, and Character Education are the major foci in our classrooms. Ritson life centres around the four key words in our school mission statement: respect, reflect, believe, achieve!

Our very supportive School Community Council (S.C.C.) is involved in policy and fund-raising initiatives. The S.C.C. helps to solidify the school's partnership with parents and it is instrumental in assisting at various functions throughout the school year. Both staff and students continue to be lifelong learners, who work together to meet the various needs of all stakeholders.

About the 2008-09 Results/Next Steps

The results of the 2008-2009 EQAO data will be shared with the parents of our Grade 4 and 7 students, the staff and members of the School Community Council. Our EQAO action plan team, consisting of school administration and staff, will develop a plan which will help to focus school initiatives and resources to improve EQAO results for the upcoming school year. Standardized tests, however, are only one measure of student performance. There are many other factors which contribute to overall student achievement. A key indicator of a child's ability is the day to day performance as measured by the classroom teacher and other school board personnel.

Throughout the year, learning skills will be assessed and evaluations will be completed in preparation for the spring assessment. Students will be given clear directions for improvement. Also, students will have opportunities to practice assessment units. Administration and staff will be involved in the planning for the spring assessment period and will devise a clear plan. Teachers will work as a team, planning for and delivering the assessment.

A summary of our school's results is as follows.

In Grade 3 Reading: 41% of our students performed at the provincial standard or higher.

In Grade 3 Writing: 43% of our students performed at the provincial standard or higher.

In Grade 3 Mathematics: 49% of our students performed at the provincial standard or higher.

Our Grade 3 students continued to demonstrate steady growth in Writing and Mathematics.

There was a decline in their Reading results.

In Grade 6 Reading: 49% of our students performed at the provincial standard or higher.

In Grade 6 Writing: 38% of our students performed at the provincial standard or higher.

In Grade 6 Mathematics: 21% of the students performed at the provincial standard or higher.

In Grade 6 students' results declined in all three subject areas.

The School Plan for Ritson Public School for 2009-2010 will continue to focus on Literacy, Numeracy, and Character Education. School teams have been designed to address each of these foci. The major focus in Literacy will be the completion of our Writing Wall based on the OWA documents. Numeracy will be addressed with the continued evolution of 5 Day Numeracy Plan . in all of our classrooms. Effective utilization of math manipulatives will continue to be a major component of our ongoing efforts to improve Grade 6 results in mathematics. The Junior results will also be specifically addressed by the further implementation of last year's Bertelsmann Project (*Shared Reading In Numeracy: A Five Day Plan*), that focused on the links between effective literacy and numeracy instruction.

Ongoing professional development opportunities for our entire staff have allowed us to increase our internal capacity to best meet the needs of our students in all three divisions.

Parents who wish to peruse the Ritson Public School's EQAO results are welcome to contact the school to set up an appointment or they may view the results on the school board website. Together, we are committed to improving student achievement.

School Report

Assessments of Reading, Writing and Mathematics
Primary Division (Grades 1–3) and Junior Division (Grades 4–6), 2008–2009

School: Ritson PS (485233)
Board: Durham DSB (66060)

I am pleased to provide you with this report on the Assessments of Reading, Writing and Mathematics, Primary Division (Grades 1–3) and Junior Division (Grades 4–6), for 2008–2009. Included are student results for the current year, those from previous years and, to put these results in context, information about the local student populations.

Throughout the province and since the inception of the agency, EQAO results have helped inform professional practice and have served as a catalyst for improving student achievement. This report has been designed to assist you in your conversations about improved student learning.

We believe that every student deserves the best outcome from public education. That’s why, in close collaboration with Ontario educators, EQAO continues to develop assessments that gauge the achievement of all Ontario students against the learning expectations outlined in The Ontario Curriculum. These assessments ensure that every student in Ontario’s publicly funded school system is assessed using the same yard stick at key stages in his or her schooling.

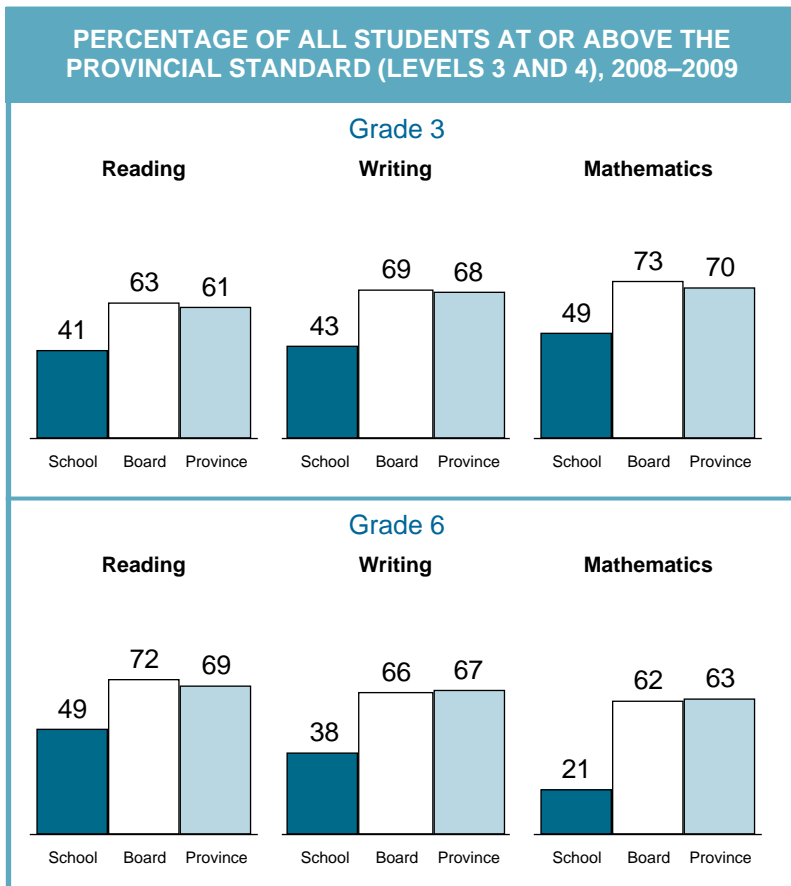

However, it should be remembered that EQAO’s assessment results are just one piece of information about student achievement. These results should be considered in conjunction with school-based information, such as that from classroom assessments.

I trust this report will help parents, educators and all who support a strong public education system work together so that all students can reach their full potential.

Sincerely,

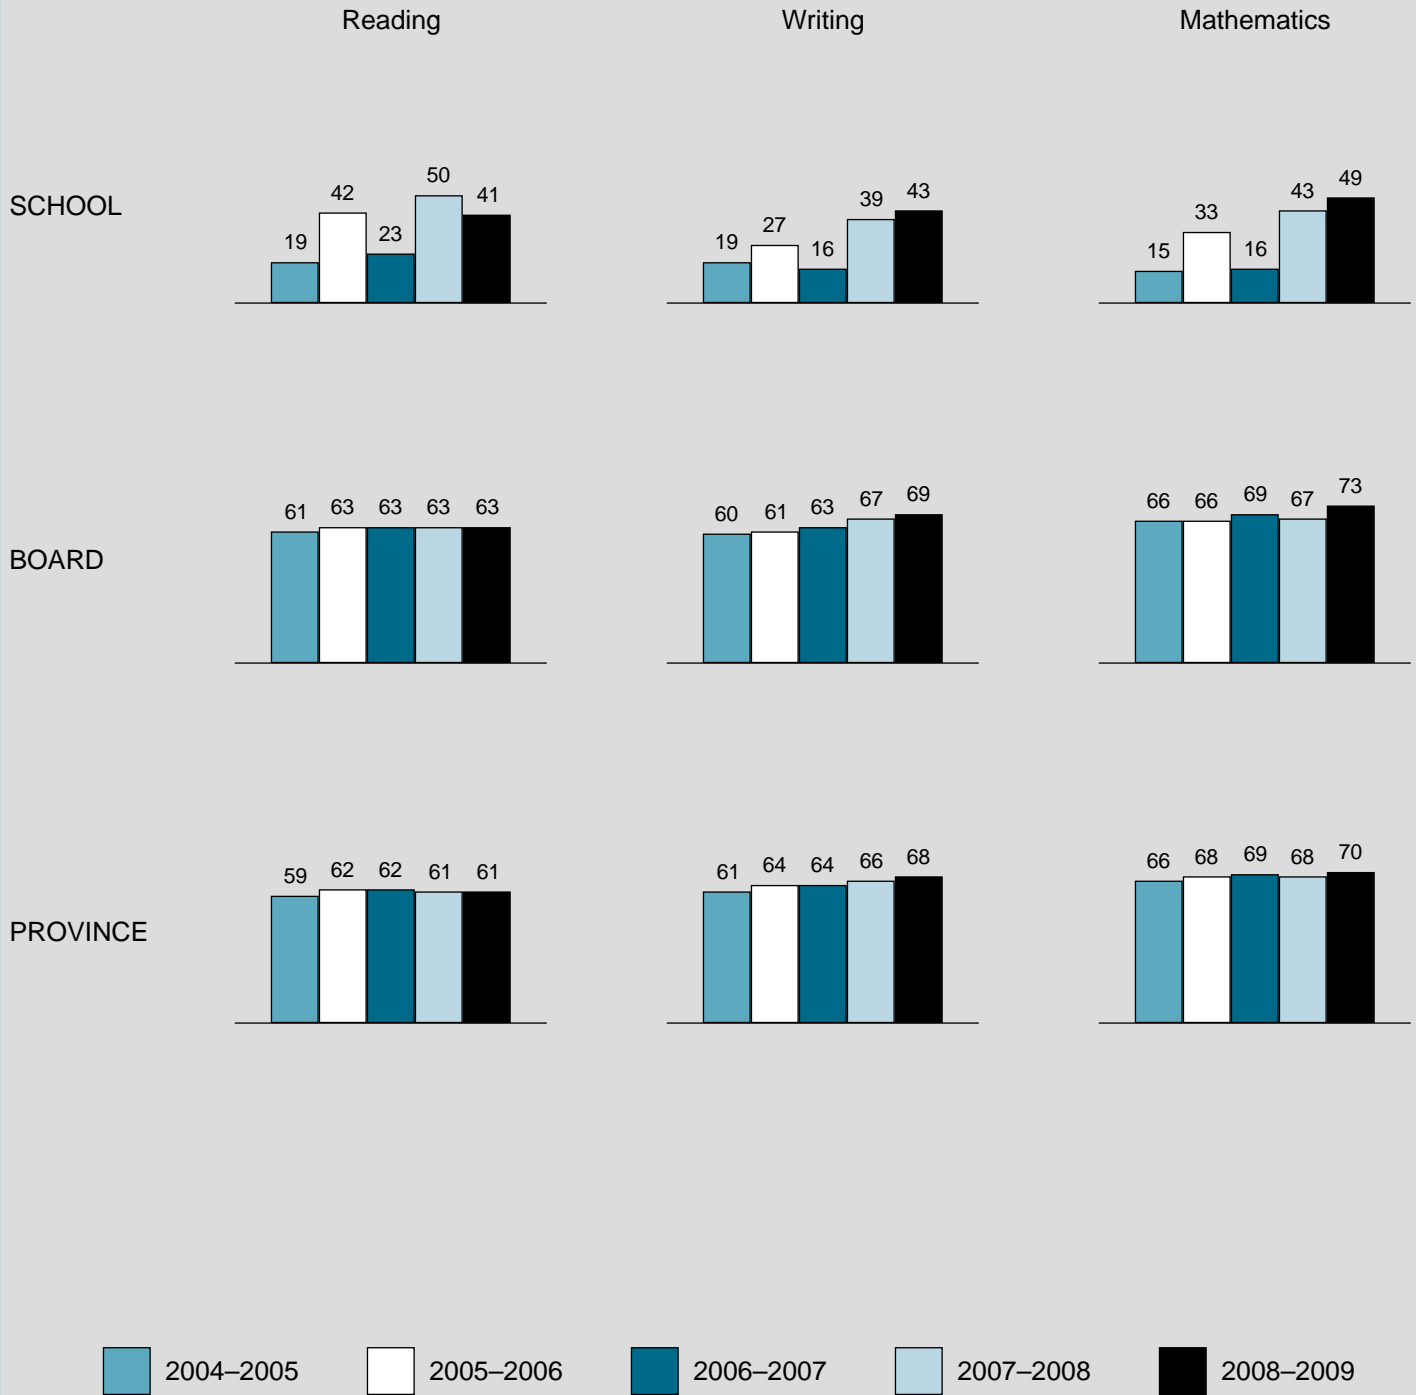

Marguerite Jackson
Chief Executive Officer
Education Quality and Accountability Office

TIPS

Each school or board is unique. To appreciate the distinctive character of a school or board, look at the contextual information to understand the features and characteristics of the community it serves.

Every assessment captures the performance of students at one point in time each year. Consider the results along with other information about students' achievement in reading, writing and mathematics.

Exercise caution when interpreting results for small schools or boards. Results may vary considerably from year to year, and differences may look exaggerated. For example, in a school of 20 students, a difference of 10% represents only two students.

Trends may be difficult to identify or to interpret. This is especially true in small schools or boards, or in schools where there is a high turnover in the student population.

EQAO values students' privacy. Results are not reported publicly for schools where fewer than 15 students participated, because it might be possible to identify individual students.

ABOUT THIS SCHOOL OR BOARD REPORT

This report shows how well students have met curriculum expectations to the end of the Primary Division and the end of the Junior Division. Students complete a set of test booklets that allow them to show what they have learned in reading, writing and mathematics. The assessments are based on The Ontario Curriculum.

This report includes

- ◆ results for this year
- ◆ a comparison of results over the past four years to aid in monitoring improvement
- ◆ information about the characteristics of the students who participated
- ◆ summary graphs showing the percentage of students achieving the provincial standard in reading, writing and mathematics
- ◆ detailed tables and graphs showing results for all levels of achievement, results for gender and participation information
- ◆ student questionnaire results
- ◆ an explanation of all terms used in this report.

HOW TO USE THIS REPORT

- ◆ Examine the contextual information to understand the similarities and differences between the school, the board and the province; the board and the province. Consider the challenges that any differences might present.
- ◆ Examine the results for reading, writing and mathematics.
 - Are these results consistent with what you would expect?
 - How do the school results compare to the board and the province; the board results compare to the province?
 - How do these results compare over time?
 - What influence might students' attitudes have on student performance (refer to the questionnaire results)?
- ◆ Speak to school or board staff about the goals for school improvement related to reading, writing and mathematics.

The Education Quality and Accountability Office is an independent agency that gathers information about student achievement through province-wide assessments. Each year, all Grade 3 and Grade 6 students across Ontario take part in these assessments of reading, writing and mathematics. Individual results are reported to students and to parents and guardians. School, board and provincial results are released publicly.

† These percentages are based on the actual number of students and cannot be calculated simply by adding the rounded percentages of students at Levels 3 and 4.

†† Results include only students for whom gender data were available.

Assessments of Reading, Writing and Mathematics, Primary and Junior Divisions, 2008–2009

Contextual Information over Time: Grade 3*

This information provides a context for interpreting the school's results over the past five years.

Grade 3	2004–2005	2005–2006	2006–2007	2007–2008	2008–2009
Enrolment					
Number of students	54	45	43	28	37
Participation in the Assessment					
Reading [†]	89%	84%	100%	100%	97%
Writing [†]	89%	84%	100%	100%	97%
Mathematics [†]	89%	84%	100%	100%	97%
Gender					
Female	54%	44%	47%	57%	57%
Male	46%	56%	53%	43%	43%
Student Status					
English language learners**	0%	0%	0%	0%	0%
Students with special needs (excluding gifted)**	26%	24%	33%	14%	38%
Place of Birth					
Born in Canada	93%	98%	100%	100%	97%
Born outside Canada	2%	0%	0%	0%	3%
In Canada less than one year	0%	0%	0%	0%	0%
In Canada one year or more but less than three years	0%	0%	0%	0%	0%
In Canada three years or more	2%	0%	0%	0%	3%
Language					
First language learned at home was other than English	2%	0%	0%	4%	3%
Year Student Entered Current School					
Year of the assessment		13%	23%	39%	27%
Year prior to the assessment	Data not collected ^{††}	18%	23%	18%	14%
2 years prior to the assessment		20%	19%	14%	24%
3 or more years prior to the assessment		44%	35%	29%	35%
Data not available		4%	0%	0%	0%

* Contextual data pertaining to gender, student status, place of birth, language learned at home and year entered school are provided by schools and/or boards through the Student Data Collection process. Some data may be missing because they were not provided by the school or the board.

† Some French Immersion students do not write all components of the assessment in Grade 3; the numbers shown reflect those students who were expected to write each component as determined by the French Immersion participation option selected by boards.

** See the Explanation of Terms.

†† The question related to student mobility changed in 2005–2006.

Assessments of Reading, Writing and Mathematics, Primary and Junior Divisions, 2008–2009

EXPLANATION OF TERMS

All Students	Results are reported for all students in the grade.
Participating Students	Results are reported only for those students who took part in the assessment (excludes "no data" and "exempt" categories).
Provincial Standard	The Ministry of Education has set Level 3 as the provincial standard.
Level 4	The student has demonstrated the required knowledge and skills. Achievement surpasses the provincial standard.
Level 3	The student has demonstrated most of the required knowledge and skills. Achievement is at the provincial standard.
Level 2	The student has demonstrated some of the required knowledge and skills. Achievement approaches the provincial standard.
Level 1	The student has demonstrated some of the required knowledge and skills in limited ways. Achievement falls much below the provincial standard.
NE1	"Not enough evidence for Level 1" is used when students did not demonstrate enough evidence of knowledge and understanding to be assigned Level 1.
No Data	Students who did not complete any part of the assessment due to absence or for medical or other reasons.
Exempt	Students who were formally exempted from participation in one or more components of the assessment.
English Language Learners	Students who have been identified by the school in accordance with English Language Learners: ESL and ELD Programs and Services: Policies and Procedures for Ontario Elementary and Secondary Schools, Kindergarten to Grade 12 (2007). Prior to 2007, English language learners were called English as a second language (ESL)/English literacy development (ELD) learners.
English Language Learners Receiving a Special Provision	English language learners identified by the school as receiving a special provision. Detailed information about special provisions is available in EQAO's Guide for Accommodations, Special Provisions and Exemptions.
Students with Special Needs (excluding gifted)	Students who have been formally identified by an Identification, Placement and Review Committee, as well as students who have an Individual Education Plan. Students identified as gifted are not included.
Students Receiving One or More Accommodations	Students identified by the school as receiving accommodations. Students identified as gifted are not included. Detailed information about accommodations is available in EQAO's Guide for Accommodations, Special Provisions and Exemptions.
N/R	"Not reported" indicates that the number of students participating (fewer than 15 in a group) or responding to the Student Questionnaire is so small (fewer than six in a group) that identification of individual student results might be possible; therefore, results are not reported.
N/D	"No data available" is used to indicate that there were no students in the grade or subject for the group or year specified.
W	Results for some or all students are being withheld by EQAO. For further information, please contact the school principal.
