Principal: Rick Dejong

Vice-Principal: Louise Wilhelm

About Our School/Community

Sunderland Public School is situated in the northern part of the Durham District School Board, in the village of Sunderland. At the present time, Sunderland Public School has a school population of 379 students who attend Junior Kindergarten to Grade 8 classes. In addition, our school had a Junior Intermediate Resource class and provides the site for Grove School for a Chimo day treatment class.

Active and supportive parental involvement is evident and encouraged. High academic expectations are a priority. Parents work, in partnership with the school, to ensure students are successful learners. We are a very busy and productive place that is filled with positive energy. Volunteers are always a welcome part of our school community. The Joint Community/School Library, which is located within our school, encourages our entire community to read on a daily basis.

Staff are members of our Professional Learning Community. Teachers and Educational Assistants work collaboratively to set strategic goals in order to enhance learning opportunities for all students. Staff regularly participate in team meetings and professional development activities to refine instructional strategies to meet the individual needs of our students and improve individual student achievement.

The doors at Sunderland Public School are always open for students, parents, community members, staff and visitors. We have a number of community and sports events planned throughout the year.

About the 2008-2009 Results/Next Steps

EQAO results will be shared with the School Community Council, parents, students, teaching staff and any interested community members. The school action plan will be created by a planning team consisting of representatives from our grades 1 - 8 staff, Special Education Resource Teachers and the school administrators. All staff is given the opportunity to provide input. The plan will include a more detailed analysis of the results, a review of last year's plans, strategies and resources that will be utilized. Our current school improvement plans feature goals for persuasive writing, math facts and character development.

Our school results indicate areas in which we need to make further gains. The discrepancy between the achievement of boys and girls is most evident in the area of writing. 60% of grade 3 girls were at or above the provincial standard, while 67% of the boys were. 71% of grade 6 girls were at or above the provincial standard, while 24 % of the boys were. 60% of grade 3 girls and 62% of grade 3 boys were at or above the provincial standard in reading. 60% of the grade 3 girls and 62% of the grade 3 boys were at or above the provincial standard in mathematics. 71% of the grade 6 girls and 57% of the grade 6 boys were at or above the provincial standard in reading. 62% of the grade 6 girls and 52% of the 6 boys were at or above the provincial standard in mathematics.

The Grade 3 results show the following percentage of students performing at level 1: 10% in

reading, <1% in writing, and 3% in mathematics. 26% of Grade 3 students were at level 2 in reading, 32 % at level 2 in writing, and 32 % at level 2 in mathematics. The Grade 6 results show 7% performing at level 1, and 27 % at level 2 in reading. 2% at level 1 and 49% at level 2 in writing. In mathematics, 9 % were at level 1 and 33 % were at level 2. Literacy and numeracy initiatives will continue to be utilized to address the needs of students who are performing at level 1 and level 2. Once the individual student scores are returned to the school, we can further investigate our areas of strength and need.

Literacy continues to be a main focus for our school. Expository writing skills will be developed and focussed on throughout all of our classes. CASI assessment is being used in Grades 4-8. The primary staff continue to refine the practice of guided reading, levelled reading materials and Animated Literacy. We continue to access the expertise of our K - 6 facilitator. All staff members are involved in Professional Learning Communities and many staff members are also part of the Professional Book Clubs which focus on literacy and numeracy strategies. As a result of our district review, the following suggestions are being implemented by staff and discussed by division: posting exemplars and anchor charts, using co-operative learning activities to solidify strategies, incorporating the school-wide focus on character education by making text to self connections, problem solving in pairs and small groups to consolidate mathematical understanding, posting the target/goal of each lesson, and the use of written descriptive feedback. As a community, we remain dedicated to ensuring that all students show improvement and are motivated to learn.

School Report

Assessments of Reading, Writing and Mathematics
Primary Division (Grades 1–3) and Junior Division (Grades 4–6), 2008–2009

School: Sunderland PS (542148)
Board: Durham DSB (66060)

I am pleased to provide you with this report on the Assessments of Reading, Writing and Mathematics, Primary Division (Grades 1–3) and Junior Division (Grades 4–6), for 2008–2009. Included are student results for the current year, those from previous years and, to put these results in context, information about the local student populations.

Throughout the province and since the inception of the agency, EQAO results have helped inform professional practice and have served as a catalyst for improving student achievement. This report has been designed to assist you in your conversations about improved student learning.

We believe that every student deserves the best outcome from public education. That’s why, in close collaboration with Ontario educators, EQAO continues to develop assessments that gauge the achievement of all Ontario students against the learning expectations outlined in The Ontario Curriculum. These assessments ensure that every student in Ontario’s publicly funded school system is assessed using the same yard stick at key stages in his or her schooling.

However, it should be remembered that EQAO’s assessment results are just one piece of information about student achievement. These results should be considered in conjunction with school-based information, such as that from classroom assessments.

I trust this report will help parents, educators and all who support a strong public education system work together so that all students can reach their full potential.

Sincerely,

Marguerite Jackson
Chief Executive Officer
Education Quality and Accountability Office

TIPS

Each school or board is unique. To appreciate the distinctive character of a school or board, look at the contextual information to understand the features and characteristics of the community it serves.

Every assessment captures the performance of students at one point in time each year. Consider the results along with other information about students' achievement in reading, writing and mathematics.

Exercise caution when interpreting results for small schools or boards. Results may vary considerably from year to year, and differences may look exaggerated. For example, in a school of 20 students, a difference of 10% represents only two students.

Trends may be difficult to identify or to interpret. This is especially true in small schools or boards, or in schools where there is a high turnover in the student population.

EQAO values students' privacy. Results are not reported publicly for schools where fewer than 15 students participated, because it might be possible to identify individual students.

ABOUT THIS SCHOOL OR BOARD REPORT

This report shows how well students have met curriculum expectations to the end of the Primary Division and the end of the Junior Division. Students complete a set of test booklets that allow them to show what they have learned in reading, writing and mathematics. The assessments are based on The Ontario Curriculum.

This report includes

- ◆ results for this year
- ◆ a comparison of results over the past four years to aid in monitoring improvement
- ◆ information about the characteristics of the students who participated
- ◆ summary graphs showing the percentage of students achieving the provincial standard in reading, writing and mathematics
- ◆ detailed tables and graphs showing results for all levels of achievement, results for gender and participation information
- ◆ student questionnaire results
- ◆ an explanation of all terms used in this report.

HOW TO USE THIS REPORT

- ◆ Examine the contextual information to understand the similarities and differences between the school, the board and the province; the board and the province. Consider the challenges that any differences might present.
- ◆ Examine the results for reading, writing and mathematics.
 - Are these results consistent with what you would expect?
 - How do the school results compare to the board and the province; the board results compare to the province?
 - How do these results compare over time?
 - What influence might students' attitudes have on student performance (refer to the questionnaire results)?
- ◆ Speak to school or board staff about the goals for school improvement related to reading, writing and mathematics.

The Education Quality and Accountability Office is an independent agency that gathers information about student achievement through province-wide assessments. Each year, all Grade 3 and Grade 6 students across Ontario take part in these assessments of reading, writing and mathematics. Individual results are reported to students and to parents and guardians. School, board and provincial results are released publicly.

	Female	Male	Female	Male	Female	Male	Female	Male	Female	Male
School	22	28	31	32	23	29	17	14	24	21

† Includes only students for whom gender data were available.

Assessments of Reading, Writing and Mathematics, Primary and Junior Divisions, 2008–2009

STUDENT QUESTIONNAIRE RESULTS FOR THIS SCHOOL: GRADE 3 (# = 30)		
Questionnaire Item	Percentage of Students*	Number of Students Who Answered "Yes"
I am a good reader.		16
I like to read.		15
I read by myself at home.		12
I read with someone older than me at home.		7
I use a computer for reading activities at school.		9
I am a good writer.		13
I like to write.		12
I write by myself at home.		15
Someone older than me helps me with my writing at home.		4
I use a computer for writing activities at school.		10
I am good at mathematics.		6
I like mathematics.		19
I use mathematics to solve problems outside school.		5
Someone older than me helps me with my mathematics at home.		12
I use a computer to learn mathematics at school.		9
I use a calculator to learn mathematics at school.		5
At home, there is a computer for me to use for school work.		13

* Percentages may not add to 100, due to a lack of or ambiguous responses. Where there is no number in a box, the percentage of responses is smaller than 4.

EXPLANATION OF TERMS

All Students	Results are reported for all students in the grade.
Participating Students	Results are reported only for those students who took part in the assessment (excludes "no data" and "exempt" categories).
Provincial Standard	The Ministry of Education has set Level 3 as the provincial standard.
Level 4	The student has demonstrated the required knowledge and skills. Achievement surpasses the provincial standard.
Level 3	The student has demonstrated most of the required knowledge and skills. Achievement is at the provincial standard.
Level 2	The student has demonstrated some of the required knowledge and skills. Achievement approaches the provincial standard.
Level 1	The student has demonstrated some of the required knowledge and skills in limited ways. Achievement falls much below the provincial standard.
NE1	"Not enough evidence for Level 1" is used when students did not demonstrate enough evidence of knowledge and understanding to be assigned Level 1.
No Data	Students who did not complete any part of the assessment due to absence or for medical or other reasons.
Exempt	Students who were formally exempted from participation in one or more components of the assessment.
English Language Learners	Students who have been identified by the school in accordance with English Language Learners: ESL and ELD Programs and Services: Policies and Procedures for Ontario Elementary and Secondary Schools, Kindergarten to Grade 12 (2007). Prior to 2007, English language learners were called English as a second language (ESL)/English literacy development (ELD) learners.
English Language Learners Receiving a Special Provision	English language learners identified by the school as receiving a special provision. Detailed information about special provisions is available in EQAO's Guide for Accommodations, Special Provisions and Exemptions.
Students with Special Needs (excluding gifted)	Students who have been formally identified by an Identification, Placement and Review Committee, as well as students who have an Individual Education Plan. Students identified as gifted are not included.
Students Receiving One or More Accommodations	Students identified by the school as receiving accommodations. Students identified as gifted are not included. Detailed information about accommodations is available in EQAO's Guide for Accommodations, Special Provisions and Exemptions.
N/R	"Not reported" indicates that the number of students participating (fewer than 15 in a group) or responding to the Student Questionnaire is so small (fewer than six in a group) that identification of individual student results might be possible; therefore, results are not reported.
N/D	"No data available" is used to indicate that there were no students in the grade or subject for the group or year specified.
W	Results for some or all students are being withheld by EQAO. For further information, please contact the school principal.
